U.S. Patent and Trademark Office PTOL-303 (Rev. 11-03) Continuation Sheet (PTOL-303) 09/526,483

Application No.

Continuation of 2. NOTE: Applicant argues that Chang teaches correcting motion vectors in an MPEG standard, not correcting motion data of a selected component in a stream of data as recited in the independent claims. The Examiner notes that motion vectors discussed by Chang can be considered motion data and the frames which contain the motion vectors can be considered components. An addition, the amendment adds limitations to claims 46-48 that would require further search and/or consideration.
